Partisan bitterness cropped out at yes terday's session of the Constitutional Convention. There is no time for any such display of feeling, and real business is what the country demands.

THE TWO PIELDS.

There is no doubt that harmony is a good thing, but it is possible to have to nuch of a good thing.

Mr. Sullivan had just been to the Sub-Treasury and had in his pocket \$455 in new crisp greenbacks. "I can change I, but it's too new and I'm afraid of it. I've rung up your fare and you'll have to pay me."
Then Mr. Sullivan offered the conductor his choice from a lot of new \$5 and \$10 bills, and while he was doing it Lawyer Charles W. Brooke got on the car. "Hello, Charlie," said Sullivan Lend me a nickel to pay this man. 340 bills, and while he was doing it Lawyer Charles W. Brooke got on the car.

to the Editor: To those having been fortunate enough in their early years in possessing a gentle, loving mother, who taught us on our bended knee and clasped hands to believe in an omnipresent, loving God and a joyist bereafter, it is difficult, even sad o depart from the earliest impressions engraved on our minds. Would not a person so through and buoyancy where this great and impressive end is in view than if there was nothing fo which to strive? In our school days the teache offered a prize-a book, a medal, for which w for which we strive. Naturally, no one with an intelligent, reasoning mind can bring himself o believe honestly that he exists for the time present only, and not to live again. No! The most ignorant tribes of the earth to-day in a hereafter in some form or other. Why not much more we?

Raw Foods and Vitality.

Cooking is said to destroy the vitality of foods. Live foods, such as fruits, vegetables, nuts, milk, butter, cheese, eggs, get their nutriment from the vital element. A bean, potato or a grain will grow if planted or nourished raw; cooked it no longer possesses the vitality to reproduce itself. Many dietarians claim not only physical health and animal perfection, but rare spiritual beauty and mental force for the raw

Gentle Little Folks,

Gentle children make gentle men and gentle women. Training children in etiquette and good breeding is almost as essential as religious instruction, because good manners will influence their characte to a great degree, and our thoughts and feelings are also governed by our boys and girls, and the display actions. Every one knows that a rude, ill-bred child is an unendurable nulsance, be it at home or abroad, in the parlor wears a cart-wheel hat on the back of or in the car, while, on the contrary, courteous, well-bred, pleasing children short, wide breeches, and tan socks that are winsome, lovable and delightful.

Costly Black Kid Gloves.

Black kid gloves are the costlient, stock in hosiery. The dye rots the skine o matter how fine they may be in quality. It is for this reason that small dealers carry a limited stock. White or colored gloves may be put away with reasonable safety, but black kid gloves dry up, crack and become worthless in a short while. Women who have fancy for black kid gloves should buy them as required. Like butter, fresher the stock the better.
